THERMOCHIMICA ACTA, VOLUME 166 (1990)

SUBJECT INDEX

Adiabatic calorimetry,
Adiabatic calorimetry for evaluation of thermally induced reactions in liquid propellants 231
Aging,
Memory experiments in physically aging systems: a test of multiordering parameter models 93
Physical aging studies in amosphous poly(ethylene terephthalate) (PET) blends 77
Aramid,
Moisture content of aramid and polybenzimidazole fibers 17
Automatic thermal analysis system,
New applications of the automatic thermal analysis system 319
Automotive coatings,
Dynamic mechanical analysis of automotive coatings on a metal substrate 157

Birefringence,
Strain, birefringence, and volume relaxation and recovery in polymer glasses 105

Calibration,
Temperature calibration of a power compensation DSC on cooling 309
Coal,
A TG method of analysis for use in monitoring the efficiency of fluidized-bed coal combustion processes 357
Applications of thermal analysis methods to iron minerals in coal — a synthesis 337
Combustion studies of coal derived solid fuels by thermogravimetric analysis. III. Correlation between burnout temperature and carbon combustion efficiency 351
Combined techniques,
Combined DSC and TG data for measuring heats of reaction 251
Quantitative TG/IR 301
Combustion,
A TG method of analysis for use in monitoring the efficiency of fluidized-bed coal combustion processes 357
Combustion studies of coal derived solid fuels by thermogravimetric analysis. III. Correlation between burnout temperature and carbon combustion efficiency 351
Combustion reservoir simulator,
A TG/DTG kinetic model and its application in an in-situ combustion reservoir simulator 219
Conformation,
Conformation of ethylene/propylene copolymers (random or block) as seen by ^{13}C NMR, IR and thermal methods 53
Country of origin
Characterization of macadamia nuts by differential scanning calorimetry for country of origin 291
Cure monitoring,
Cure monitoring of an epoxy–amine system by dynamic mechanical thermal analysis (DMTA) 169

Degradation,
Dynamic mechanical and thermogravimetric analyses of the effect of ferric oxide on the thermaloxidative degradation of silicone rubber 137
Thermal degradation of epoxidized soybean oil in the presence of chlorine-containing polymers 207
Dielectric thermal analysis,
Applications of differential scanning calorimetry and dielectric thermal analysis to the study of paper deterioration 1
Diesel particulates,
Thermogravimetry of filter-borne diesel particulates 267
Differential scanning calorimetry,
Applications of differential scanning calorimetry and dielectric thermal analysis to the study of paper deterioration 1
Dynamic mechanical analysis,
Dynamic mechanical analysis of automotive coatings on a metal substrate 157
Dynamic mechanical evaluation of a rubber toughened graphite–epoxy composite with application for laminate analysis 147
Dynamic mechanical thermal analysis,
Cure monitoring of an epoxy–amine system by dynamic mechanical thermal analysis (DMTA) 167

Efficiency,
A TG method of analysis for use in monitor-

ing the efficiency of fluidized-bed coal combustion processes 357
Combustion studies of coal derived solid fuels by thermogravimetric analysis. III. Correlation between burnout temperature and carbon combustion efficiency 351
Epoxidized soybean oil,
Thermal degradation of epoxidized soybean oil in the presence of chlorine-containing polymers 207
Epoxy–amine system,
Cure monitoring of an epoxy–amine system by dynamic mechanical thermal analysis (DMTA) 169
Ethylene/propylene copolymers,
Conformation of ethylene/propylene copolymers (random or block) as seen by ^{13}C NMR, IR and thermal methods 53

FDEMS sensing techniques,
Determination of an optimum resin transfer molding procedure using FDEMS sensing techniques 119
Ferric oxide,
Dynamic mechanical and thermogravimetric analyses of the effect of ferric oxide on the thermaloxidative degradation of silicone rubber 137
Fire retardants,
Thermal analysis–mass spectrometry and thermogravimetric adsorption on fire retardants 41
Flammability,
A study of the flammability of chlorinated polyethylene under pyrolysis conditions 27
Fludized-bed processes,
A TG method of analysis for use in monitoring the efficiency of fluidized-bed coal combustion processes 357
Fossil fuels,
Fossil fuels: an overview of trends, methods and applications of thermal analysis 343
Fuels,
Combustion studies of coal derived solid fuels by thermogravimetric analysis. III. Correlation between burnout temperature and carbon combustion efficiency 351
Fossil fuels: an overview of trends, methods and applications of thermal analysis 343

Glasses,
A new accelerated oxidative stability test for glass-forming organic compounds 199
Graphite–epoxy composite,
Dynamic mechanical evaluation of a rubber toughened graphite–epoxy composite with application for laminate analysis 147

Heat-flux differential scanning calorimetry,
A high performance sensor for heat-flux differential scanning calorimetry 331
Heats of reaction,
Combining DSC and TG data for measuring heats of reaction 251

Laminates,
Dynamic mechanical evaluation of a rubber toughened graphite–epoxy composite with application for laminate analysis 147
Lubricants,
Simultaneous thermal analysis–mass spectrometry on lubricant systems and additives 277

Macadamia nuts,
Characterization of macademia nuts by differential scanning calorimetry for country of origin 291
Memory experiments,
Memory experiments in physically aging systems: a test of multiordering parameter models 93
Minerals,
Applications of thermal analysis methods to iron minerals in coal—a synthesis 337
Moisture content,
Moisture content of aramid and polybenzimidazole fibers 17

Nitroarenes,
Thermolysis of nitroarenes: 2,2′, 4,4′, 6,6′-hexanitrostilbene 241

Oxidative stability,
A new accelerated oxidative stability test for glass-forming organic compounds 199
Oxygen inhibition,
Oxygen inhibition ion differential scanning calorimetry of free radical polymerization 185

Paper,
Applications of differential scanning calorimetry and dielectric thermal analysis to the study of paper deterioration 1
Poly(ethylene terephthalate),
Physical aging studies in amorphous poly(ethylene terephthalate) (PET) blends 77
Polybenzimidazole,
Moisture content of aramid and polybenzimidazole fibers 17
Polyethylene,
A study of the flammability of chlorinated polyethylene under pyrolysis conditions 27
Polyimide siloxane,
Characterization of a polyimide siloxane by thermal analysis 137

Polymer glasses,
Strain, birefringence, and volume relaxation and recovery in polymer glasses 105
Polymer melts,
Thermal conductivity of polymer melts 69
Polymerization,
Oxygen inhibition ion differential scanning calorimetry of free radical polymerization 185
Power compensation DSC,
Temperature calibration of a power compensation DSC on cooling 309
Propellants,
Adiabatic calorimetry for evaluation of thermally induced reactions in liquid propellants 231

Quantitative TG/IR,
Quantitative TG/IR 301

Recovery,
Strain, birefringence, and volume realxation and recovery in polymer glasses 105
Resin transfer molding,
Determination of an optimum resin transfer molding procedure using FDEMS sensing techniques 119

Sensor,
A high performance sensor for heat-flux differential scanning calorimetry 331
Silicone rubber,
Dynamic mechanical and thermogravimetric analyses of the effect of ferric oxide on the thermaloxidative degradative of silicone rubber 137
Soybean oil,
Thermal degradation of epoxidized soybean oil in the presence of chlorine-containing polymers 207
Strain,
Strain, birefringence, and volume relaxation and recovery in polymer glasses 105

TG/DTG kinetic model,
A TG/DTG kinetic model and its application in an in-situ combustion reservoir simulator 219
Thermal analysis–mass spectrometry,
Simultaneous thermal analysis–mass spectrometry on lubricant systems and additives 277
Thermal analysis–mass spectrometry and thermogravimetric adsorption on fire retardants 41
Thermal conductivity,
Thermal conductivity of polymer melts 69

Volume relaxation,
Strain, birefringence, and volume relaxation and recovery in polymer glasses 105
